

# ***Balancing Mobility & Security in an Operations Environment***

I-95 Corridor Coalition

Annual Meeting

December 14, 2005

# *Objectives*

- Present perspectives on the link between transportation mobility and security
- Discuss how to balance mobility and security in an operations environment
- Identify opportunities for I-95 Corridor Coalition to address these issues

## *Discussion Questions*

- What security initiatives are underway that impact mobility (or conversely what mobility initiatives are underway to offset impacts of heightened security)?
- How can ITS/information technology help us to connect and achieve mobility and security goals?

## ***Discussion Questions (2)***

- What roles can DOTs, MPOs and multi-state coalitions play in facilitating activities or initiatives that may assist to achieve a balance between mobility and security?
- What are any specific agency and/or industry initiatives underway that may be modeled/leveraged by the Coalition or its members?

# *Keynote Speaker*

Victoria Cross Kelly  
Director, Tunnels, Bridges and Terminals  
Port Authority of New York and New Jersey

## *Panelists*

- Robby Moss – Transportation Security Administration
- Alicia Nolan – Federal Highway Administration
- Ted Trepanier – Washington State DOT
- Steve Mondul – Virginia DOT

I-95 CORRIDOR  
COALITION
