Attention PDA Suite Users:  
Use PDA Suite Tools to Make Holiday Travel Advisories  
Fall 2018

Thanksgiving (Family, Food and Traffic) are quickly approaching!

Just a reminder that you can use the Probe Data Analytics Suite tools to help travelers better plan for a safer and less stressful trip this Thanksgiving holiday week!

To help you get started, the University of Maryland’s CATT Lab put together a step-by-step “How-to Guide” for creating this travel advisory graphic:

Get the "How-to Guide" here  
Your PDA log-in is required to access this guide.

Here’s an example schedule for preparing a travel advisory and getting it posted on your website, based on Ed Stylic’s experience (Baltimore Metropolitan Council) – he has put together a number of travel advisories using PDA Suite. Thanks again, Ed!

Reminders:

- Please contact the CATT Lab (support@ritls.org) with questions or for assistance with creating travel advisories for your agency.
- Please send us your advisory to us so that we can share it with the other User Group members!

Have a safe holiday!

Questions or Concerns:

General Coalition Questions: Denise Markow at 301-789-9088 or dmarkow@i95coalition.org
Probe Data Analytics (Technical Support): UMD CATT Lab at vpp-support@ritls.org
User Group Logistics: Joanna Reagle at 610-228-0760 or jreagle@kmjinc.com
