

Quick Start Sheet - Obtaining access to the Vehicle Probe Project (VPP) Data

For Coalition Member States, Associates, Affiliates, Universities and Approved Sub-Contractors

Step 1 – Confirm Agency Membership

To become an associate or affiliate member of the Coalition

Send an e-mail to Trish Hendren requesting membership in the I-95 Corridor Coalition (please copy Patty Reich). Eligibility requirements are provided on the [Member Eligibility section of the Coalition website](#). You will receive a response in less than one week.

I-95 Corridor Coalition
Beyond Boundaries

Step 2 – Completing a Data Use Agreement (DUA)

Please note that State DOTs complete the DUA process only one time.

- [Click here if you are a member state, associate or affiliate – Primary DUA](#)
- [Click here if you are a university or sub-contractor/consultant – Secondary DUA](#)
- Completed DUAs for universities and sub-contractor/consultants should be submitted to the **VPP State Point of Contact (POC)** or to your managing point of contact from your member agency.
- They will review/approve the request and will submit it to Denise Markow for processing.
- It could take up to two weeks for processing of DUAs. The [State POC is available here](#)

Questions regarding VPP contracts or DUAs should be sent to [Denise Markow](#).

Access to Real-time Data – Real-time Visualizations – Access Archived Data, PM Analytics

If You Want to Access to Real-time Vendor Data Only:

For INRIX: Go to the [INRIX monitoring site](#) and create an account. INRIX will verify that your agency has executed a DUA for the VPP and send you access information via email within 2 business days. Questions for INRIX? Contact Rick Schuman at 407-298-4346 or rick@inrix.com

Download the [VPPII Interface Guide for INRIX](#) for more information on real-time data feed integration.

For HERE: To obtain information on their monitoring site or project interface guide, or if you have any other questions, contact Frank Corsaro at 917-362-1140 or francesco.corsaro@here.com

Download the [VPPII Interface Guide for HERE](#) for more information on real-time data feed integration.

For TomTom: To obtain information on their monitoring site or project interface guide, or if you have any other questions, contact John Auble at 617.640.7897 or john.auble@tomtom.com

Download the [VPPII Interface Guide for TomTom](#) for more information on real-time data feed integration.

If You Want Access to Real-time Visualizations, Archived Data and Performance Measurement Analytics:

These steps will allow you to gain access to RITIS & the PDA Suite:

- 1) First, create a [RITIS account](#) – you will need to create a RITIS account using your agency email address through this link to gain access to RITIS. After you have requested an account, the UMD’s CATT Lab will verify your information and send an email with a link to activate your account. Please remember the username and password with which you register; you will not be able to activate your account without them.
Note: Your RITIS account will only include access to real-time visualizations until you have submitted a completed DUA from Step 2 on the prior page.
- 2) Once a DUA form has been completed, submitted and approved, you will then receive access to the PDA Suite.

Please note that the steps listed above for access will need to be completed for **each person** within a consultant organization or a university who is seeking access to work on behalf of a member agency.

You are encouraged to view these [video tutorials of the PDA Suite](#). A description of all RITIS tools is available in the [RITIS Tool Catalog](#). Please contact support@ritis.org with any questions.
